Effluent limitations, performance standards
Design criteria, performance standards
Discretionary design criteria
Discretionary design criteria—liners and monitoring
Prohibited without permit
Assuming primacy delegation from EPA received.
Not being applied at this time.
Certificate of Designation by county with CDH approval.
Proposed regulations requiring OGCC permit are out for public review at this time.
Exemption for these facilities is dependent upon OGCC's adoption of regulations which provide protection equivalent with solid waste regulations and/or ground water quality regulations.
Exemption for this type of disposal is dependent upon OGCC adopting currently proposed regulations for tracking such wastes from generator to disposal.
